D5425-1/-3	D5425 REV A	Y	N	N	Y	N	N	N	17-729	See Below

Description of Issue:
 5513-1 Bushings need to be made to specific tighter tolerances as dictated by engineering in order to fit into off centerline wearplate holes
 5489-041/-045 wearplates don't have final production tooling and must be made according to a a specific dxf and temporary instructions.
 Flat pattern and final wearplate deviations need to be aproved by engineering
 D5425 Skidtubes, GIRT/Wearplate holes which are off centerline need to be reamed to a higher precision (within drawing tolerances)
